PERSONAL STATEMENT

I aspire to add more colors to my life through innovation, hard work, and team-effort. I look forward to getting a chance to expand my creativity and dedication. Art is my passion and I have a keen eye for pixels. In my attempt to create amazing user-experiences, I tend to go with simple and user-driven designs. In my free time, get on the move with my pen and brushes experiencing the world, one sketch at a time and love to meet people who share the same passion as I do.
